Cambridge Cangaroos Trampoline Club - Accessibility Policy

This policy should be read in conjunction with our Health and Safety policy which can be found on our Welfare page and British Gymnastics Health and Safety Policy, which we have also adopted. We endeavour to continue to improve our facility to make the building as accessible as possible.

Access to building

Already in place	Still to put in place
• Front entrance door width suitable for wheelchair users • Floor outside and inside is level with no steps/slope) • Flooring is easy to travel across for wheelchair users/people with mobility issues • Disabled parking space and enlarged parking space • Access to Disability trampolines also available via roller doors	• Improved access to disability trampolines via roller doors

Toilet facilities

Already in place	Still to put in place
• Vinyl floor is level throughout toilets • Carpeting in reception is smooth with no ridges. • Doorways acceptable width for wheelchair users/people with mobility issues/people with buggies • Handrail in toilet cubicle • Clear signage with symbols to help people with reading or cognitive problems or if English isn't their first language	

Gym facilities

Already in place	Still to put in place
• Changes in floor surfaces mostly represented with changes in colours to aid people with visual problems • Changes in floor height are limited with the gym the same height flooring and can be used without steps up or down • Foam steps to provide access to designated disability trampolines	• Easier access to disability trampolines as currently hampered by safety matting. • Some changes in floor surfaces still need better distinction
